A. M. Sullivan, M. P., which we print elsewhere, will be found good reading. They were written and published to rebuke an unprovoked and unmanly assault upon the women members of the Irish Land League association, who are doing much good work in behalf of the Irish poor, and tor their relief and release from the oppressions and exactions of rapacious landlords. They will be found quite readable. The women of Ireland who form the Ladies' Land League are doing God's service to humanity in a cause as holy as religion itself—a cause which Cardinal Manning describes as involving "a dinal Mauning describes as involving "a question of life, hunger, thirst, nakedness, question of life, hunger, thirst, nakedness, notice to quit, labor spent in vain, the toil of police he said his name was Chastaine, and years seized upon, the breaking up of home, that Sutton was an alias he assumed. Shot like

Dog in the Streets of Montgomery, Ala., his Pockets Filled with Recently Acquired Swag-His Dying Confession-A Misspent Life's Sad End.

From Montgomery, Alabama, has come the news that on last Tuesday the notorious James A. Chastaine, formerly of this city, had been captured on charges of burglary, and in trying to escape from the officers had been shot and killed. The career of the man was a checkered one, adding another illustration to the text—"the way of the transgressor is hard." Chastaine was a native of Georgia, and many years ago intermarried with a most estimable lady, a native of Florida. He and many years ago intermarried with a most estimable lady, a native of Florida. He drifted to Memphis, and his gentlemanly manners, pleasing address and business qualifications made him many friends, not only in the business world but in society. He secured the position of book-keeper at the house Ely, Harvey & Richardson, on Front street, and was soon their confidential clerk, he being regarded as quite a prize as a business man. He was fond of both good and bad so-ciety, and circulated freely in both. He became very fast and got into discreditable escapades, he being a gay Lothario, notwithstanding the fact that he was married and the father of children. The wine cup, the the father of children. The wine cup, the brandy bottle, the whisky jug, the beer mug, billiards, faro-bank tables and fast women were his peculiar weaknesses. He lived high and had a good time with his friends and companions, he spending money lavishly. Some discrepancies in his books and several curious commercial transactions caused his employers to suspect that all was not well. The office of Ely, Harvey & Richardson caught fire and there was a vague suspicion that Chastaine was not ignorant of its origin.

For this crime he was again tried, convicted and sentenced to the Missouri State penitentiary for twenty years, but some time afterward, in 1880, he cleverly escaped from the prison and was heard of no more until the affair at Mont-gomery, Alabama, occurred last Tuesday. BURGLARIES IN ALABAMA.

There were three volumes of Shakespeare belonging to Captain Fitzpatrick, a set of burglar's keys, a pair of nippers, two bottles of chloroform, three decks of cards—one of them marked, a pair of elegant alippers and a pair of rubber shoes, numerous articles of clothing, the property of citizens whose houses had been plundered. In his overcoat, which he had left at the saloon where he had been playing cards when arrested, were been playing cards when arrested, were found two diamond bracelets, two finger and

a pair of earrings. These were the property of Mrs. Guice, of Eufaula, and Mr. Guice's gold watch was found on his person. The police are making every effort to discover what disposition has been made of the great bulk of the stolen property, and also to discover Chastaine's confederates. Later Particulars.

The body of Chastaine remained at police headquarters where an inquest was held, the verdict being in accordance with the facts published. On Wednesday morning a dispatch was sent to his relatives, inquiring whether they wished to have the body, but whether they wished to have the body, but no answer being received, and it being stated that the relatives refused to receive the dispatch, the body was interred at the cemetery, the undertaker, the driver and two policemen attending the funeral; the expenses being defrayed out of the money found on the deceased. Women have hitherto been almost excluded from the benefits of life insurance on the plea of their greater liability to disease and death. Some recent statistics from Vienna are opposed to that theory, showing, as they do, that there is in Europe fifty per cent. more female than male nousenarians. The director of statistics of Vienna shows that of 102,831 persons who have lived beyond the age of ninety, 60,303 of them are women.

The debate in the senate yesterday was not a very edifying spectacle. Hero, to-day, the country was notified that the very purpose of the remarkable coalition which had been formed was to put Virginia under the dominition of that coalition. He could say hindness, in fearlessness and in perfect firming to the gentlemen on the other side that the Denne crats were prepared to meet thatisaue. They would meet it unflinchingly. If the southern people we guilty of murders and assassinations, and fraud and wrongs, and oppression of the colored people then he conceded they were barbarians. He coffeed they had no right to be represented on this floor. On the other hand, if the southern people were not guilty of these charges, those who invented these groundless, goldess slanders were worse than barbarians. The southern people meant to have a good government. They meant to protect the colored people and educate them, and they meant to stop outrages of every kind. return of carpethag methods, and they were willing to submit it to the people of the north on this question.

Senator Logan called attention to the fact that this discussion had been started by Senator Hill, of Georgia, by an assault upon the senator from Virginia [Mahone.] He quotes from a report made by General Sheridan, that while he had been in sommand in the south over 200 murders had been to committed in Louislama and Texas.

Senator Butler, of South Carolina, and Senator Voorhees, of Indiana, both denied the truth of the statement, and a long and anary discussion ensued, in which Senators Logan, of Hillions, Hill, of Corado, and Maxey, of Texas, also participated. In conclusion, Senator Logan said that when a man came and invited the cohorts of freedom to follow him to see that the colored man had a free and fair vote, the Republicans would hold out their hands to him. The north would indorse the Republican party in standing for an honest ballot. If the Democrats came with shotguns, it would be Greek against Greek. It would not be the white man putting his heel on the neck of the colored man. Senator Beck made some humorous allusion to the frauds-practised in Rhode Island and Massachusetts, which were good-humoredly answered by Senator Burnside.

Senator Hoar their nised a point of order against the reading of the article, which was overruled by the president pro tem, (Ingalis). Senator Hoar volunteered the explanation that, of his own motion and without any suggestion from anybody, he had takenjhe liberty to go to the senator from indiana, and say to him that, while it was no affair of his ithour's! the article seemed to contain a personality in regard to the senator from Virginia, and he had asked him to consider whether he had designed to adopt that article as a part of his speech. The senator from Indiana had with great promptness, as soon as he could get the floor, risen and had, aid that the fact had been called to his attention that the article contained some personality, and that that personality he desired to withdraw.

Senator Voorhees (indignantly)—And then the senator from Virginia rises here to require me to make concessions beyond that.

Senator Hoar (in a conciliatory tone)—I do not think the gentleman from Indiana made. Senator Malone, declining to take advantage of Senator Hoar's suggestion, said: Mr. President, this is a very simple question. I stated the case to this senate, and stated it, I think, clearly. I stated that the acuator from Illinois [meaning Indiana] had read to this house an article from a newspaper, in which different references to myself were made, the senator having stated that that was part of his speech. Now, what I have arisen for, notwithstanding what the senator has said that he did not want to be dictated to, and that, speaking imperatively, is the question if ask the senator now. Scienter Mahone [resolutely]—Isolact you now.
Scienter Voorhees [contemptuously]—Well, sele

Senator Mahone [persisting in his point]—I have called upon you in this house to say whether or not.

Before he had time to finish the sentence Senator Voorhees anticipated it, and throwing off the self-restraint he had observed to this point, said passionately: "Then I indorse every single word of that article."

Senator Mahone, breaking in—"Then I say the references which you make to me are such as no honorable or brave man would make, and I denounce you as such here." [The reporter gives the sentence as uttared.]

Senator Voorhees—That is a bare question of here and hereafter.

Senator Voorhees—I will know exactly how to meet it. I indorse every word said in that article. I indorse the term "renegade Democrat." I indorse the term "renegade Democrat." I indorse everything else in it that may be construed to reflect on the course of the senator from Virginia, and without his taking the time to put works upon me, he can seek his redress. There is no use in making any mistake about this matter at all. I heard the senator from Virginia stand here and shout out. "That thing had to stop." Suppose it don't. It won't with me by your dictation. That is cheap-very cheap [alluding to Senator Mahone's expression]. 270 Fourth Avenue, New York,
